JCO6 Rec' T/PTO 28 MAR 2005

**THE FOLLOWING IS THE ENGLISH TRANSLATION OF THE  
ARTICLE 34 AMENDED SHEETS (Page 16)**

**We claim:-**

- 5 1. Dye preparations comprising, each percentage being based on the weight of the preparation,
  - a) from 0.1% to 30% by weight of one or more anthraquinone, quinophthalone or azo dyes which are free of ionic groups as a component (A),
  - 10 b) from 0.1% to 20% by weight of a dispersant based on a naphthalenesulfonic acid-formaldehyde condensation product having an average molecular weight of at least 11 000 g/mol, as a component (B),
  - c) from 0.1% to 90% by weight of one or more mono- or polyhydric alcohols as a component (C),
  - d) from 0% to 5% by weight of customary assistants as a component (D), and
  - 15 e) if appropriate water ad 100% by weight.
- 20 2. A dye preparation as claimed in claim 1, wherein the fraction of naphthalenesulfonic acid-formaldehyde condensation product having a molecular weight of at least 11 000 g/mol is in the range from 10% to 95%.
- 25 3. The use of dye preparations as claimed in claim 1 or 2 as inks for ink jet printing.
4. The use of dye preparations as claimed in claim 1 or 2 for sublimation transfer printing.
- 30 5. The use of dye preparations as claimed in claim 1 or 2 for printing textile substrates.
6. The process for printing textile substrates by the ink jet printing process using dye preparations as claimed in claim 1 or 2.
7. The printed textile substrates obtainable by the process of claim 6.
- 35 8. The process for printing textile substrates by the sublimation transfer printing process using dye preparations as claimed in claim 1 or 2.
9. The printed textile substrates obtainable by the process of claim 8.
